## Professional Experience

- OKINTERNET (*Digital agency*) — Kyiv, Ukraine

**Junior / Middle developer**, 2011 to 2014

I began as a junior web developer. I was surrounded by lots of talented developers at work. OkInternet was a fast-growing company that took over a large part of internet industry in Ukraine. I learnt very fast and as a result, in a short period of time I became a middle developer.

- DIGITAL MAFIA (*Web studio*) — Zhytomyr, Ukraine

**Middle / Senior web developer**, 2014 to 2016

I worked on creating and customizing web applications and tools using advanced development and coding techniques. I was responsible for managing all phases of application development – from prototyping and coding to system testing, integration and deployment.

- LE GUIDE NOIR — Madrid, Spain

**Senior Full Stack web developer**, 2016 to 2021

I became a part of professional international team and got an opportunity to take part in ambitious technological projects in fashion industry.

- AVEKAPETI — Paris, France

**Senior Full Stack web developer**, 2021 to 2024

I joined a professional French startup to develop a lot of complex internal tools and to improve automation of business processes.
